Returns were received from a total of 47 groups from 36 institutions (45 from 33 institutions last year). Many thanks to all those who took the time to compile the return for their group. **This year questions were introduced relating to the fees status of postgraduate students. About a third of returns did not show the consistency required between breaking figures down by ‘Female or Male’ and ‘Home/EU or Overseas’: the majority were detected by AY and queried, but some (slight) inconsistency remains.**
