

ECAS 5

EUROPEAN CRITICAL ACCOUNTING STUDIES CONFERENCE

21st-22nd June 2005,
Warwick Business School,
Warwick University.

Organised by

Rob Bryer, Chris Carter, Christine Cooper, Simon Mohun, Mick Rowlinson, Steve Toms, and Tony Tinker.

Call for papers:

'MARX, ACCOUNTING, AND THE LABOUR THEORY OF VALUE'

Building on previous ECAS workshops, the conference will explore evidence of links between Marx's labour theory of value, accounting, and management, and consider the implications for the theory's continuing relevance in Marxist economics, critical accounting and management studies. It will examine the implications of the 'New Interpretation' for critical accounting, and applications and developments of the labour theory of value in other settings and for other issues. It seeks bases for fruitful collaboration between accountants, economists, strategists, and others in the management area, in both research and meaningful praxis.

The conference organisers envisage two tracks: (i) Marx, accounting and economics, (ii) Marx and critical strategy, but others are possible.

Submission of papers:

Send abstracts up to 500 words or (preferably) full papers as (i) an email attachment to Rob.Bryer@wbs.ac.uk, (ii) in hard copy and on disk by post to Yvonne Cooper, Secretary to the Accounting and Finance Group, Warwick Business School, Warwick University, Coventry CV4 7AL, UK, by the **1st June 2005**.

Please include full postal addresses, telephone and fax numbers and email addresses. Include full details for any co-authors.

Papers accepted to-date:

1. Cliff Bowman, 'Differential labour and competitive advantage: embedding resource-based theory within Marx's labour theory of value'.
2. Rob Bryer, 'Marx, accounting and the labour theory of value: a critique of Marxist economics'.
3. Richard Macve (with Rob Bryer and Dick Fleischman), 'Smith, Marx or Foucault in understanding the early British Industrial Revolution? A re-examination of management and accounting for capital and labour at the Carron Company'.
4. Simon Mohun, 'The New Interpretation and accounting: a critical assessment'.
5. Tony Tinker and Aida Sy, 'Eurocentrism and Accounting History'.
6. Steve Toms, 'The resource based view of the firm and the labour theory of value'.

CPA Special Issue on 'Marx, accounting and the labour theory of value'

The editors of Critical Perspectives on Accounting will consider the papers for a special issue on the theme of the conference.

Conference Venue and Fee:

The conference venue is Warwick University. The conference fee is £225 (£75 for PhD students) and includes copies of papers, refreshments, meals and the conference dinner, includes accommodation.
