A seminar for those engaged in cultural diplomacy and the cultural sector, from government officials/representatives to artists. Seminar will explain how EUNIC (The network of European Union National Institutes for Culture, www.eunic-online.eu) members develop common projects or develop new initiatives. Worldwide, members come together in 'clusters' to develop activities. Over 60 are now in operation with many more in development.

The event will provide the opportunity for participants to share their opinions on how Slovakia and the Region can participate and profit from these activities.

This event is a joint initiative between EUNIC, CCP and ENCATC (with the support of its members VŠMU and IKM).
