Qualification line 1

*The figures are based on recorded registration date on the HMRC National Insurance Recording and Pay as you Earn System, i.e. after the NINo application process has been completed. **This may be a number of weeks or months (or in some cases years) after arriving in the UK***

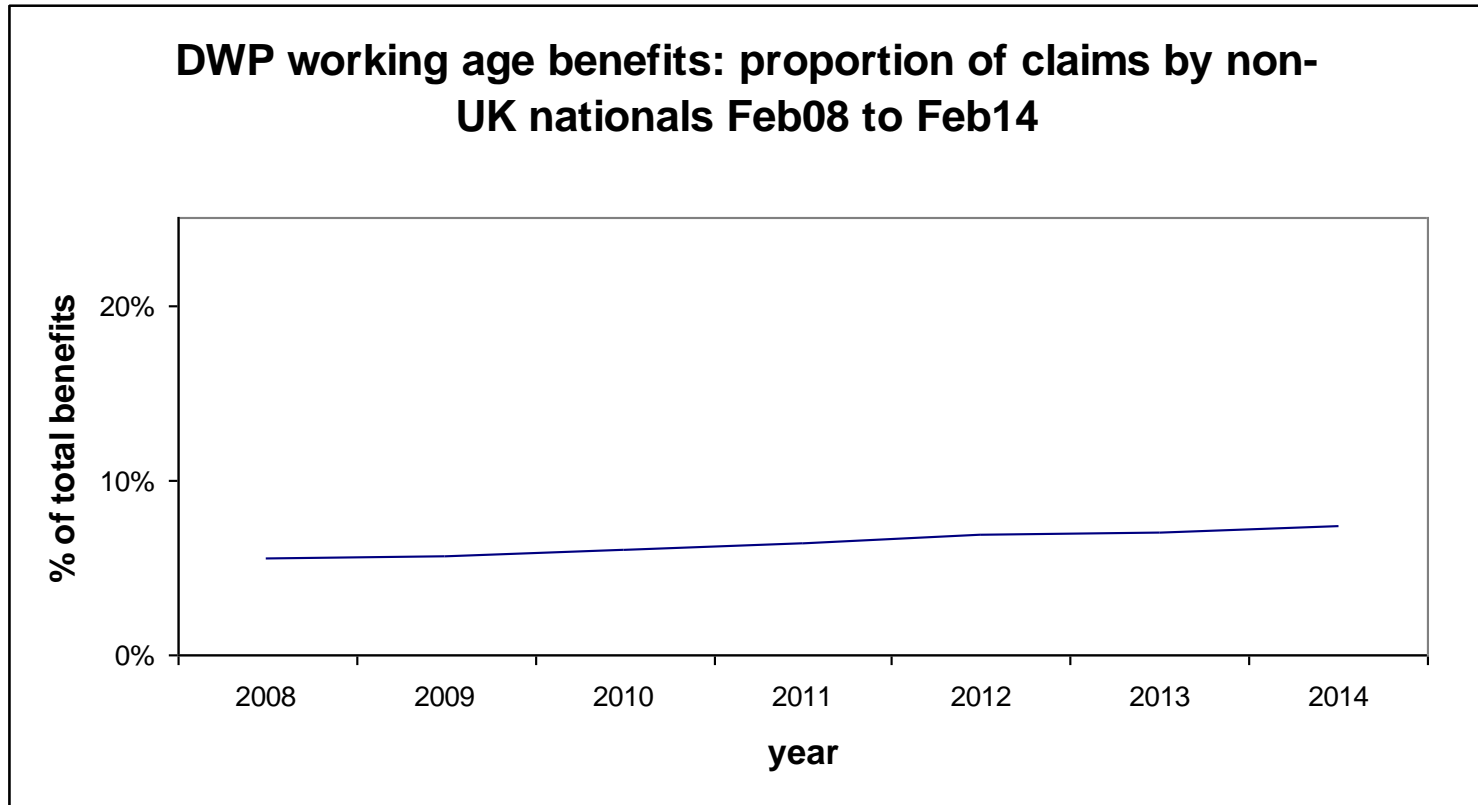

Time taken between arrival in the UK and National Insurance number registration, registrations between 1st January 2014 to 31st March 2014

Qualification line 2

*A change to the process of recording NINOs during the quarter April-June 2014, means that the volume of NINo registrations recorded are lower in this quarter than would otherwise be the case (estimated to be around 15% - 25% lower in the quarter April - June 2014 and 2% - 5% lower for the year to June 2014). **Therefore, comparisons of NINo registrations over time for the latest periods (quarterly and annually) should be viewed with caution.** The process issues impact all nationalities i.e. the impact is not skewed to migrants from specific countries*
