

Would you like to join a charitable trust that's unlike any other in the world? The International Centre for Life (or 'Life' as we're known) is a pioneering science village in the heart of Newcastle upon Tyne. We are proudly independent, entrepreneurial and quirky – and we are always interested in hearing from people with the talent, drive and skills to help us continue to make a difference.

We live in a world that's shaped by science and technology. We want to inspire everyone in Northeast England to explore and enjoy science and to discover its relevance to their own lives. This has never been more relevant than it is today. This includes helping school children to embrace science and to consider exciting and rewarding careers in this field. A key part of Life is the science centre, which opened in May 2000. It is *the* science centre for the North. Our varied and exciting engagement programme serves families, schools, adults, pre-schoolers and teenagers.

<u>Lead Maker (Maternity Cover)</u> £23,000 - 25,000 per annum (dependent on experience) Full time (40 hours per week)

Would you like to share your passion for making and tinkering with the public?

Life has an exciting vacancy for a creative and motivated individual to manage the Making Studios. Reporting into the Head of Public Engagement and supervising a Maker, you will help develop and facilitate imaginative and innovative making activities for science centre visitors and school groups.

Ideally, you will be an excellent communicator, with experience of working with children supervising craft or skills-based activities. An excellent presenter and facilitator and have experience of developing and delivering hands-on making activities in a busy, fast paced audience-focused environment. As the role involves bringing the philosophy of making and tinkering to a wide audience, you will need to be able to craft prototypes from different materials and be a competent user of digital tools. It is preferable you will have a degree in a STEM/creative subject (or equivalent qualification).

Applicants must be able to work flexible hours as the Science Centre – including in the Making Studios – which is open 7 days a week including the occasional evening event.

As well as the salary stated above and working in a welcoming friendly environment, the successful candidate will receive 23 days holiday plus bank holidays, an additional holiday on their birthday after 12 months service, access to a workplace pension and discounted carparking in the centre of Newcastle.

The successful applicant will be subject to a DBS check. Details of our DBS policy are available on request. For further information regarding this post, please refer to the job description and person specification on our website.

To apply for this vacancy, please complete the online application form which can be accessed from our website at <a href="https://jobs.life.org.uk/">https://jobs.life.org.uk/</a> by Monday 23 May 2022.

The International Centre for Life is an equal opportunities employer and is accredited with the Equality Standard Gold Award.
