

Annual General Meeting of the RSS Social Statistics Section

13 November 2014

Events since the last AGM

- * **Recent Advances in Research on Housing Transitions and the Life Course**
- * **The crime divergence from police recorded crime and the Crime Survey of England and Wales**
- * **Migration and the Census**
- * **Population projections for older populations (in Leeds)**
- * **Valuing house price impacts of wind farms (in Glasgow)**
- * **UK Measures of National Well-Being**
- * **Data Privacy; Protecting Participant Identities**
- * **Web Survey of the General Population – a Symposium**
- * **Paradata: From survey research to practice**

Events since the last AGM continued...

- * RSS conference invited session on data visualisation
- * RSS conference invited session on Inference for segregation indices in the presence of spatial autocorrelation
- * Linking health care records: care.data, possibilities and problems
- * New perspectives in Multilevel modelling
- * *And today Cathie March Lecture: Anonymisation: are the data we release safe*

Many of the events were joint events (e.g. with the Official Statistics Section, AQMEN, General Applications Section, NCRM, ASC and the Cathie Marsh Lecture with the Social Research Association)
