

Proceedings of the Institution of Civil Engineers

Transport

## CALL FOR PAPERS

### SPECIAL ISSUE AUGUST 2008—ROAD USER CHARGING

**Special Issue Editors: Howard Potter, TPI, and Dr Stephen Ison, Loughborough University, UK**

*Transport* is a high-quality, internationally refereed journal, published four times a year as part of the *Proceedings of the Institution of Civil Engineers*.

A dedicated issue on road user charging is planned for August 2008.

The issue intends to concentrate on the following generic topic areas.

- Policy analysis.
- Types of road user charging; applications, case studies
- Delivery mechanisms; scheme assessment, roll-out, administration.
- Technologies.
- Impacts; financial, business; social, environmental, land use.
- Public acceptability.

Researchers and practitioners engaged in any of the topics listed above are invited to submit papers, which will be subject to the usual refereeing procedures, by 31 October 2007. Papers should be broadly general in their approach. A brief outline (200 words) of the proposed paper can be submitted by 31 August 2007 for consideration by the Editors.

Please e-mail abstracts to Agnes Alvite, Editorial Coordinator, using the details below. Full papers should be submitted using [www.editorialmanager.com/tran](http://www.editorialmanager.com/tran). Shorter briefing articles on any topic within the journal's aims and scope are also always welcome.

*Transport* is indexed in the Science Citation Index.
