

'Helping Scotland Prosper'

Sharing Scotland's Knowledge
SENIOR KNOWLEDGE ANALYST
- KMAP

FIXED TERM POSITION

GLASGOW c£25,000

Scottish Enterprise is the economic development agency for lowland Scotland operating through a network of local enterprise companies and other partner organisations. KMap is an exciting public sector partnership to establish geo information bureau and internet services to inform Scotland's economic development agenda.

As the Senior Knowledge Analyst you will be responsible for establishing and developing a geo information analysis capability across the organisation. It is expected that you will have had previous experience and knowledge of socio demographic data and be an expert GIS user with experience of ESRI, Map Info or other equivalent products as well as an ability to use databases for data processing.

Your work will also involve: quantitative analysis of economic and social issues; map authoring; web publishing; formulation of data maintenance procedures; meta data custodianship; liaison with other agencies; promotion of the KMap capability and transfer of skills to others. You will be part of a small team of specialists working in collaboration with outsourced service providers.

It is expected that you will have a relevant qualification at either degree or postgraduate level. Your appointment will be on an initial fixed term contract of two years.

For more information, see our site www.scottish-enterprise.com/KMAP/

To apply, email your CV (quoting ref 00/43) to recruit@scotent.co.uk or write to Recruitment Administrator, Scottish Enterprise, 120 Bothwell Street, Glasgow G2 7JP. Closing date 30th June 2000.

Scottish Enterprise is committed to achieving equal opportunities.
