

RICS Geomatics Faculty

7-9 September 2001

Geomatics biennial conference 2001

Where geomatics is today, others will be tomorrow

Introduction

Introduction

Introduction from Vice Chairman, RICS Geomatics Faculty

Where Geomatics is today others will be tomorrow. RICS Geomatics Faculty Biennial Conference is the event to attend this year. The conference presents a unique opportunity for all those involved in geomatics together with others to hear from an exciting range of top quality speakers about the key issues facing the profession today and the impact that these issues have on our society as a whole.

The conference is designed for you and comprises a mixture of formal and informal sessions where, as well as being able to discuss and debate the issues of the day, you can meet old colleagues and make new friends.

Please take a moment to look at the programme. I am sure you will feel that this is an event not to be missed. I can assure you of a warm welcome to a weekend that you will remember for a long time.

I look forward to seeing you in September.

Rob Mahoney

Venue

The University of Nottingham
University Park
Nottingham
NG7 2RD
United Kingdom

T +44(0) 115 951 5151
