on the

5th March 2004

at

The International Convention Centre, Birmingham

Registration from: 08.30

Event: 09.30 - 16.30

THE CRITICAL CARE EVENT OF THE DECADE!

For the very first time, four major critical care organisations are joining together to:

- Celebrate achievement and success
- Focus on 'leading edge' practice
- Ensure that patients are 'centre stage'
- Create opportunities for commissioning and monitoring organisations to meet
- Look imaginatively, but realistically, at the future of critical care

This one-day event will include something for everyone who has an interest in making a real difference to critical care services.

Further details and registration forms for this event will be distributed from the 1st October 2003, via the CC Networks, or by visiting the Critical Care Programme website at www.modern.nhs.uk/criticalcare

Information about the ICC can be found at www.theicc.com

The Modernisation Agency is part of the Department of Health.
