We kindly invite you to consider organising a Satellite Workshop of the FM 2003 Symposium (http://fme03.isti.cnr.it/). Workshops are welcome on any aspect of the theory and application of Formal Methods, from language-specific issues to model integration, from tool experience to new challenging application domains. FM 2003 and associated workshops shall take place in the scientific and technological complex recently established at Pisa by the Italian National Research Council (http://www.area.pi.cnr.it/indexe.html), which lends itself as an ideal location for conferences and workshops, in terms of spaces, facilities, and vicinity to major tourist attractions.

Workshop formats

- Two-day workshops: on Sept. 8-9 (Monday-Tuesday) 2003.
- One-day workshops: on Sept 13 (Saturday) 2003.

The following information should be provided with the proposals

- Workshop title and brief description of the scope and goal
- Motivation of the relevance to the FM community
- Organizing committee and potential invited speakers
- Format of the workshop, duration and refereeing procedure, if applicable
- Expected number of participants

FM 2003 organizers offer

- Links between Conference and Workshop web pages.
- Management of registrations and hotel reservations.
- Room (up to 80 seats) and equipment (projectors, whiteboards etc.).
- One lunch and two coffee breaks per day.

Workshop proposers take care of

- Workshop publicity
- Call for papers
- Paper management
- Proceedings duplication (paper and/or CD) and distribution.

Important dates

Proposal submission: **March 7, 2003**
Acceptance notification: **March 20, 2003**
Workshop dates: **Sept. 8, 9, 13, 2003**
