Flooding Conference ICE Scotland - Czech Institutions

Monday 10th November 2003 at 9.30am.
Venue - Heriot-Watt University, Edinburgh

FLOODING - An International Problem

The Institution of Civil Engineers, in conjunction with the Czech Institutions is presenting a seminar to bring together engineers from the UK and the Czech Republic to share experiences of recent floods in both countries. The seminar will discuss climate change, flood control, flood prevention, and damage to buildings and structures.

The seminar will be held in both Prague, capital of the Czech Republic and in Edinburgh.

The Edinburgh event will be held in James Watt Conference Centre, Heriot-Watt University, on MONDAY 10 NOVEMBER 2003.
