

THE RECORD OF THERMAL HISTORY OF SEDIMENTARY SUCCESSIONS

2nd SHORT COURSE AND WORKSHOP

Roma, 21-23 June 2005

The Department of Geological Sciences
of the University "Roma Tre"
in collaboration with the Universities of
Pavia and Bologna
organises a Short Course and a Workshop
to discuss the different approaches
that can be used to reconstructing
the thermal history of sedimentary basins
in the diagenetic field

Organising Committee

S. Corrado (University "Roma Tre")
A. Di Giulio (University of Pavia)
M. Zattin (University of Bologna)

Scientific Committee

P. Casero (University "Roma Tre")
D. Cavazza (ENI)
A. Ceriani (University of Pavia)
S. Corrado (University "Roma Tre")
B. Della Vedova (University of Trieste)
P. Di Leo (IMAA-CNR, Potenza)
A. Di Giulio (University of Pavia)
D. Grigo (ENI)
C. Invernizzi (University of Camerino)
S. Mazzoli (University of Napoli)
P. Scotti (ENI)
M. Zattin (University of Bologna)

PROVISIONAL TECHNICAL PROGRAMME

Short Course on Methods and Case histories 21st and 22nd June 2005

- Geothermal constraints in Italy
- Thermal constraints from organic matter
- Thermochronological constraints from fission tracks and (U-Th)/He analyses
- Thermal constraints from fluid inclusions
- Thermal constraints from clay minerals
- Thermal history of sedimentary basins and hydrocarbon generation
- Case histories in collisional chains and extensional regimes

Speakers: M.L. Balestrieri, G. Bertotti, P. Casero, A. Ceriani, B. Della Vedova, P. Di Leo, I. Moretti, P. Scotti

Workshop on Examples from the Mediterranean area 23rd June 2005
