"Not to be missed. Jürgen is completely unconventional in his search for the real reasons for things we told him were happening in our company. All of us who worked with him found that it completely changed our way of thinking -- I'd go so far as to say it even changed the 'consciousness' of the entire company."

"What an adventure! Much of my own personal development over the last few years stems from my experience of working with Jürgen."

**Heinz Schmid, HP,
