I was in Hermeneutics last year - I appreciate greatly that ^{this year} you limited the question period to the end. It would have been a disaster to have your presentation interrupted & distracted as it would have been.
I enjoyed the topic and the genuine effort to make the concept of choice and therapy empowerment, so accessible.

I enjoyed Dr. Tatum very much.
His vast amount of knowledge,
expertise & personality impressed
me so carefully & easily. I hope
we can have him again.
He is superb. I hope he will
be a speaker soon at U.B.C.

Incredible course! Although I took this course ^{out of curiosity}, I learned more in a week than from 30 years of study seminars & books. Dr. Fatemi is a remarkable educator & his philosophy/psychology should be offered to high school students. It would have had an even more profound effect on me if I could have learned this info in my 20's - Truly remarkable man - I'm now ready to live the rest of my life with passion.

An a-ha! experience for seniors that left me wishing the knowledge had been available as life events unfolded. Also with the desire to pass the knowledge of the power of self-massage/relaxation to those with years ahead. The brilliance (sp?) with which it was presented made the message even more powerful.
