

## Wednesday 24<sup>th</sup> January – University of Southampton

7pm Opening wine reception, MSc reunion and tour of new archaeology building at the Avenue Campus, University of Southampton.

## Thursday 25<sup>th</sup> January – Tudor Merchants Hall

*Papers last 20 minutes plus questions at the end*

Registration and coffee 9:00  
Archaeopress stall and poster presentations

*Welcome 9:30*

*Session 1 10:00 – 1:00*

*Paper 1* Duncan Brown – Computers and Southampton Museums with none of the nasty bits taken out

*Paper 2* Michael Charno - Making the LEAP: Linking electronic archives and publications

*Paper 3* Steve Stead - CIDOC Current Research and Standards

*Paper 4* Neil Grindley and Torsten Reimer - Promoting Innovative Research – The Methods Network

*Paper 5* George Daghli - A “Uniform Gain” Function indicating Similarity

*Paper 6* Matthew Wright - Archeoacoustics re-examined

*Paper 7* Tim Evans, Carl Knappett and Ray Rivers – Graph theory, social network analysis and statistical physics: constructing new ways of thinking about regional network dynamics

*Discussion*

Lunch 1:00 – 2:00

Archaeopress stall and poster presentations

*Session 2 2:00 – 5:30*

*Paper 8* David Wheatley – Some new thoughts on the environment and landscape of the Avebury region

*Paper 9* Peter Holt - Development of an Object-Oriented GIS for Maritime Archaeology: Motivation, Implementation and Results

*Paper 10* Christian Lewis - Between a rock and a hard place: the challenges of interdisciplinary research

*Paper 11* Lee Hazelwood – Mathematical modelling for population diffusion

*Coffee break*

*Paper 12* Kayt Armstrong - ‘I’d rather be at Greenham’

*Paper 13* Joseph Reeves - Empirical measuring of archaeological theory: GIS approaches to phenomenology

*Keynote address* Sebastian Rahtz

*Discussion*

*Conference Reception in the **God's House Tower Museum of Archaeology**, followed by a pub buffet.*

## Poster presentations (both days)

Ana Belén Marín Arroyo - Zooarchaeology in La Fragua Cave (Spain): Analysis using GIS

Adam Newton - Modelling Plio-Pleistocene hominin behavioural ecology

Neil Grindley and Torsten Reimer - The Methods Network

Karen Kensek – Beyond verisimilitude: a survey of methods for showing missing data, multiple alternatives, and uncertainty in digital reconstructions

Heather Papworth, Graeme Earl and Simon Keay – The Portus website

## **Friday 26<sup>th</sup> January - Tudor Merchants Hall**

*Papers last 20 minutes plus questions at the end*

Registration and coffee 9:00  
Archaeopress stall and poster presentations

*Welcome 9:30*

*Session 3 10:00 – 1:00*

*Paper 1* Eleftheria Paliou - An autonomous agent-based approach to the investigation of intrasite movement and visibility at Acrotiri, Greece

*Paper 2* Leif Isaksen - Crossbones: A New Approach to Recording Skeletons in 3D

*Paper 3* Richard Haddlesey - Traditional Typologies to Digital Science: Re-evaluating Established Medieval Date Sequences for Timber Framed Buildings

*Paper 4* Kris Strutt and James Cole – Resistance tomography and geo-radar: case studies and a look to the future

*Paper 5* Doug Murphy - What's the Point?: Site Survey Strategies in a Commercial Environment

*Paper 6* Kate Devlin - Socialising the Past

*Paper 7* Tom Goskar - Trees, plants and people: visualising submerged prehistoric landscapes

*Discussion*

Lunch 1:00 – 2:00

Archaeopress stall and poster presentations

*Session 4 2:00 – 5:30*

*Paper 8* M. White, M. Sifniotis, P. Petridis, C. Suciú - Virtual reality applications for digital heritage: from multimodal interfaces to interactive environments

*Paper 9* David Lock - Is mapping the future like mapping the past? A landscape design view on digital archaeology

*Paper 10* Sven Feldmann and Nicky Milner - Mesolithic Miscellany: developing an information-exchange platform for a specific archaeological interest

*Paper 11* Mia Ridge - Buzzword or benefit?: The possibilities of Web 2.0 for the cultural heritage sector

*Coffee break*

*Paper 12* Paul Cripps - tba

*Paper 13* Emma O'Riordan - Improving Skills Improving Standards or: How I learned to stop digging and love the computer

*Paper 14* Thomas Small – Presentation of Egyptian artefacts using multimedia technologies

*Paper 15* Go Sugimoto - Archaeological Computing Forecast: JAD2 Survey and ACT Archaeology

*Discussion*

## **Saturday 27<sup>th</sup> January – Digital Archaeology Laboratory, University of Southampton**

ARCHCAMP II
