

MAKING THE RIGHT CONNECTIONS

This years conference will focus on “Making the Right Connections” and will be a one day event comprising of invited speakers and “something different” in the afternoon.

Comments from some of last years’ delegates where the theme was “Novice to Expert”

“As a novice this was interesting as knowledge, support and confidence is what I am hoping for”

*“All speakers were good with some having the “X” factor to pull it off superbly!
I like the presentation of the booklet/programme with its contents, outcomes and references”*

2007 promises to be equally stimulating as we have invited guest speakers and practitioners to present various topics plus our usual exhibition.

TOPIC	SPEAKER and ORGANISATION
Making the right connections Scotland, UK & EU	Bernie Jackson, FOHNEU
Communication	Professor of Management, Dennis Tourish, RGU
