

Guy's and St Thomas'

NHS Foundation Trust

Department of Chemical Pathology GUY'S HOSPITAL

Advanced Practitioner in Metabolic Biochemistry

Band 7, £33,146 - £42,054 pa incl.

The Metabolic Laboratories at Guy's & St Thomas' offer a comprehensive service for the Diagnosis and Screening of Inherited Metabolic Diseases throughout the South East of England.

We have strong links with the Metabolic Clinical team and other laboratories within the Trust, including Biochemical Genetics and the Purine Research Laboratories. You will be joining a dynamic team of Specialised Scientists, Dietitians, Nurses and Consultants.

There will be opportunities to work and develop areas using state-of-the-art analytical techniques including; LC-MSMS, GC-MS and Ion Exchange Chromatography.

You will play a key role in the analytical, interpretation and validation of all aspects of the Metabolic Biochemistry service. There will also be opportunities for further professional training and you will be encouraged to contribute towards national and international conferences where appropriate.

This is a full-time, permanent post that offers an excellent career opportunity to play a leading role in the service provision and develop areas of specialist expertise.

You must have HPC registration within Biochemistry, with an appropriate MSc and have a proven track record of continued professional development. Experience within this specialised discipline of biochemistry is desirable, however full training will be given.

During 2008, the metabolic service is to relocate to new refurbished laboratories on the St Thomas' Hospital Site.

For an informal visit, please contact Joanne Clapton, Specialist Scientist and Operations Manager of the Metabolic Laboratories, on 020 7188 9065 or email joanne.clapton@gstt.nhs.uk

For further details and to apply online, please visit <http://jobs.gstt.nhs.uk> quoting ref: Y1000. If you have any problems with the online application process, please contact 020 7188 4966.

Closing date: 29 June 2007 or when the first 50 applications received.

All our vacancies can be viewed on our website.

Our excellent benefits include final salary pension scheme. Please visit our website to find out more. Equality of opportunity is our Policy.
