

2nd UK Polar Network (UKPN) Day for Early Career Polar Researchers

Thursday 15th November 2007 at the University of East
Anglia in Norwich

The UKPN is the UK branch of
the IPY Youth Steering
Committee and APECS
(Association of Polar Early
Career Scientists).

www.arcticportal/apecs

This event aims to bring together young or early career scientists interested in the polar regions. We have a number of fantastic speakers lined up as well as a poster session in which all participants are invited to present research in a fun and informal session. In addition, we will be showing some vintage footage from the BAS archives. There will also be a meeting dinner to conclude the day.

If you wish to attend the network day, please register online at

www.ipyuk.org/UKPN

by **Friday 9th November.**

For more information on the UKPN and recent activities visit our website or see the first of our quarterly newsletters at
