

# It's time to think differently about Climate Change

Whether out of **fear**, doubt or laziness, many people are still **reluctant** to engage in the fight against climate change.

That's why **Carbon Detox** takes a **provocative** and entertaining approach to the issue, offering fresh ways for ordinary **'non-greenies'** to understand and respond to this **global crisis**.

Using simple Carbon Calculators for the **home**, transport and **food**, this book will show you how anyone can "drop a tonne" of **carbon dioxide** in just **one year**.

## Raise money for your campaign group with Carbon Detox
