

Disability Equality Partnership

Inclusive policy and practice: Research Seminar Series

You are cordially invited to attend the next seminar in our series:

“Exploring the benefits, barriers and essential specifications of mobile devices used for learning & assessment purposes with disabled students”

Facilitated by
Dr Christine Dearnley
Senior Lecturer/CETL - ALPS Bradford Site Co-ordinator

Wednesday 19th November 2008

University of Bradford
D Floor Foyer and Boardroom, Richmond Building
11am-3pm (including break for lunch)

This seminar investigates the role of mobile devices in supporting learning for health and social care practitioners, against a background of current UK disability legislation.

The seminar will cover

- Findings of the study
- Current legal and pedagogical issues that affect mobile learning in the United Kingdom (UK) educational sector
- Current and future developments for accessible practice for multi-platform and ubiquitous learning
- suggestions for an accessible learning object lifecycle
- Participatory research design using mobile devices to shift the locus of control in data collection processes.

There are 30 free-of-charge places available for this seminar, which will be allocated on a strictly first-come-first served basis. You should await confirmation of a place before attending.

To reserve your place, please email inclusion@heacademy.ac.uk by 12.00pm Wednesday 12th November 2008. Please indicate if you have any accessibility or dietary requirements at the time of booking.
