

University of Lausanne & International Society
of Critical Health Psychology

Sixth Biennial Conference ISCHP – July 8th – 11th, 2009

WELCOME!

We are pleased to welcome you to the Sixth Biennial Conference of the International Society of Critical Health Psychology on:

"Critical Thinking in Health Psychology"

The conference will be hosted by the University of Lausanne (Switzerland) for the first time in a non English-speaking area. It will take place in Dorigny Campus from July 8th to the 11th, 2009. Switzerland is a multilingual country and the seat of several International Organizations interested in health issues. Thus, this country represents an appropriate place for international exchange and dialogue among disciplines and cultures.

The aim of this Sixth International Conference of Critical Health Psychology is to promote dialogue between researchers and practitioners coming from different theoretical and cultural backgrounds, whether they belong to Anglo-Saxon or European and/or French-speaking approaches.

Marie Santiago – Kerry Chamberlain
