

# WuduSeat

*A unique, cost-effective, single appliance for safe, comfortable and dignified ritual washing in all new and existing commercial buildings*

Manufactured from highest quality, sanitary grade acrylic, the WuduSeat is a single appliance in which to perform wudu, a muslim washing ritual undertaken before prayer which includes the washing of hands, face and feet.

The WuduSeat is ideal for installation in any building where ablution and/or prayer facilities are required enabling a DDA and H&S compliant environment to be quickly and inexpensively implemented.

For details on how best to implement multi-faith facilities, a **Guide to Best Practice Faith Room Design** is available by registering on [www.specwash.com](http://www.specwash.com).

## WuduSeat - R (Residential) -

*Ablution in the home*

Providing the same functional benefits as the WuduSeat but with no seat attached, enabling the user to use a stool or chair of their own.

The WuduSeat - R is extremely compact, designed for use where space is limited or wheelchair access is required.

WuduSeat - R available 4th qtr 2008

## WuduSeat - M (Mosque)

*Ablution in the mosque*

The WuduSeat-M is a highly regarded ablution design for mosques, proven to overcome the high cleaning and maintenance overhead normally associated with traditional tile and cement structures, helping to avoid early refurbishment.

As well as being a cost effective solution, the WuduMate-M also provides an extremely functional, hygienic washing environment.

WuduSeat

- ✓ Use by less abled & elderly
- ✓ Health & Safety
- ✓ CSR (Corporate Social Responsibility)

Lever mixer tap

Auto sensor tap

WuduSeats are supplied with a variety of taps, all tested to ensure minimum splashing:-

## Features and Benefits of the WuduSeat

- Faces the wall in the traditional manner of wudu in the mosque
- Reduction of spillage improves safety and reduces damage to the fabric of a building
- Automatic tap options help conserve water
- Designed specifically for making wudu, thus preventing misuse and damage to unsuitable receptacles
- A compact, single appliance, thus easy to install and extremely cost effective
- Ergonomically designed in sanitary grade acrylic to facilitate cleaning and resist bacteria.
- Provided complete with waste, fixings, and a range of taps approved to ensure minimum splashing

**Original | Dignified | Safe | Convenient**

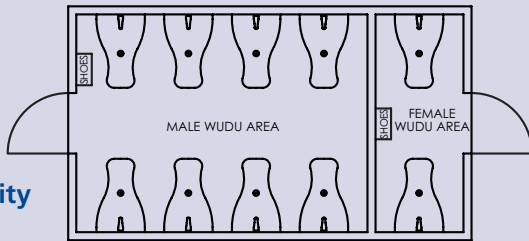

## Grab rails for less-abled and elderly

The WuduSeat can be provided with a wide range of grab and support rails, which can be configured to support any WuduSeat installation.

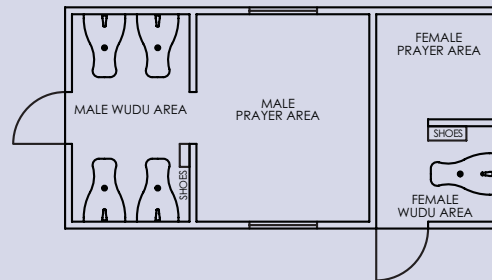

## WuduRent

*Mobile and semi-permanent wudu and prayer facilities*

Where either lack of space or flexibility to relocate is required, the WuduSeat is now available configured in semi-permanent or mobile structures, delivered by crane or trailer. Typical configurations include the following:- see diagrams

Wudu Facility

Prayer and Wudu Facility

## WuduSeat Nafura and Oasis ranges

To complement the WuduSeat, the WuduSeat Nafura and the WuduSeat Oasis models are available, hand crafted in marble and EnduraCore respectively. Marble is well known for its aesthetic appeal, EnduraCore is an immensely strong, highly refined material, available with a number of decorative finishes.

For those who want to have a range of unique matching appliances in the same material as their WuduSeat, a number of designer models of basin, pedestals and baths are available - all in the same materials. Customer specific designs can be made to order.
