t 0117 302 7500
e nathan@ashtongeo.co.uk

This organisation is one of the UK's fastest growing companies in the geospatial market who provide GIS solutions to both the private and public sector. The company offer, software products, services and data and having continued to grow are now looking to expand further.

They are now looking for a number of GIS consultants to join the professional services team reporting to the professional services manager. The team delivers consultancy services, training, technical support and supplies digital map data products to the entire customer base.

The successful GIS Consultant with their move to full CAD/GIS integration. They will interface with customers from the beginning of the sales cycle right through to delivering significant projects.

The role will include;

- Providing CAD/GIS Consultancy and Technical Support to both public and private sector clients.
- Working on small scale projects as the primary consultant.
- Collaborating with colleagues, other teams and business partners on larger projects.
- Presenting clear and creative solutions to solve clients' problems.
- Delivering results to tight deadlines and on budget.

Background

To be successful you will have:

- A related degree
- A minimum of 3-5 years of prior experience
- A wide range of CAD/GIS implementation project experience
- Experience of providing client facing services

Essential Skills

- AutoCAD skills to consultative level
- MapInfo Professional skills to consultative level
- Strong presentation skills
- Experience of using digital maps from suppliers such as Ordnance Survey and NAVTEQ.

Preferred Skills

- Practical experience of FME Desktop
- AutoCAD Map 3D experience
- Database experience (e.g. Oracle Spatial, Microsoft SQL Server, PostgreSQL, PostGIS)
- Vertical Mapper experience
- Training experience
