

Background/Themes

In this one day conference we hope to address some of the following issues:

How do we integrate state of the art, technology rich environments with traditional making and doing spaces?

What are the particular challenges to an art & design institution in effectively using space to support student learning and making?

What can we do to improve the student experience by using existing spaces and facilities more effectively?

MAKING SPACE

Conference at
University of the
Arts London

—
Our Teaching,
Learning and
Making Spaces
in the 21st Century

—
Guest speakers to include RIBA President,
Sunand Prasad
