

Division of Neuropsychology Post Qualification Training Day:

Relational Approaches to Rehabilitation following Acquired Brain Injury

This day is an opportunity to bring together clinicians who prioritise, relationships, the relational, interpersonal and social in their neuro-rehabilitative work. To think differently about both traditional concepts and new challenges within community ABI services.

Speakers will present in groups of two or three within this spirit of relationships & community

27th November 2009, Venue: London Resource Centre, Holloway Road, London.
