

08 October, 2009

Dear Sir/Madam,

BSI Technical Committee EH/4 - Soil Quality is currently preparing a revision of **BS 10175:2001 - Investigation of potentially contaminated sites – Code of Practice**.

In order to be as thorough as we can we are keen to get feedback and input from as many current and prospective users of the standard as possible.

It is for this reason that I enclose here two different comment templates relating to BS 10175.

**Template 1 - General Comment Template** - This template is for general comments relating to the new version of BS 10175. In this template we want comments on how the standard could be potentially improved e.g. is there anything that people would like added to the revised version of BS 10175 that the existing version does not cover?

**DEADLINE FOR GENERAL COMMENTS - 15 NOVEMBER, 2009**

Please send all responses to [charlotte.armstrong@bsigroup.com](mailto:charlotte.armstrong@bsigroup.com)

**Template 2 - Specific Comment Template** - This template is for specific comments relating to the existing version of BS 10175. In this template we want specific technical/editorial comments relating to specific paragraphs/clauses of the standard.

**DEADLINE FOR SPECIFIC COMMENTS - 18 DECEMBER, 2009**

Please send all responses to [charlotte.armstrong@bsigroup.com](mailto:charlotte.armstrong@bsigroup.com)

If you have queries regarding any of these instructions please do not hesitate to contact me. My contact details are listed below.

Yours Sincerely,

*C. Armstrong*

Charlotte Armstrong

Programme Manager & Secretary to EH/4 - Soil Quality  
Standards Development
