Global GIS Academy

WUN

Jointly with QMRG of RGS/IBG (UK) and Education Section UCGIS (USA)

First seminar in the Autumn/Fall e-seminars series

Dynamic Modeling in a GIS Environment

This year's joint e-seminar series will return to the topic of dynamic modelling in a GIS environment.

28th Oct at 1700 GMT

Ling Bian (Buffalo): *A dynamic social network model for disease transmission.*

Chair: Kirk Harland (Leeds)

The seminars are open to all. For details of how to join the e-seminar using the Marratech™ video conferencing environment, and further seminars in the same series, see :
