

## Scheduling Focus Group - Meeting Agenda

1. Discussion on scope of the group
  - Who are we expecting involvement from?
  - What aspects of scheduling should we be covering?
2. What software experience do we have between us?
  - What are people using (brief show of hands on each one to get a vague idea)
  - Would it be useful to get people who have a reasonable amount of experience of each one to write a short review – pros & cons – of each one?
3. Job reporting
  - Short presentation by Jon on what they are doing at Oxford and some of the issues they are facing
4. Scheduling policies
  - Resource reservations
  - Subordinate queues
  - Check-pointing & pre-emption
