

ELLE Workshop on Numerical Modelling of Microstructures

A Workshop on Numerical Modelling of Microstructures will be held

22-24 June, 2010

at the

Institute for Geosciences, Eberhard Karls University Tübingen, Germany

organised by

Paul Bons, Jens Roessiger & Enrique Gomez-Rivas

Preliminary programme:

- 21 June Arrival in Tübingen
- 22 June Recent advances in and applications of the ELLE code
- 23 June New developments and discussion of future plans
- 24 June Open programming session
- 25 June Depending on demand, Jens Roessiger will organise a field trip to the Black Forest or the Schwabian Alb

As always, the workshop will have an informal format, with plenty of room for discussion. Those interested in perhaps joining the "ELLE community" are most welcome. The number of attendees is limited to about 25 persons.

A registration fee has not yet been determined. Only a modest fee will be charged to provide coffee, tea, lunch, etc.

Expressions of interest should be sent - before April 1 - to

- **Jens Roessiger - jens.roessiger@uni-tuebingen.de**

Please inform us if you would like to present a talk or bring a poster. Jens and Enrique can help you with booking accommodation.

More information will appear soon on: <http://www.materialsknowledge.org/elle/>

The workshop will be held in the historical university town of Tübingen. A trip on the River Neckar with the typical Tübingen *Stocherkähne* will certainly be part of the programme.
