A Guide to Early Printed Books & Manuscripts

Mark Bland
De Montfort University, UK

"This is an absolutely essential book. We have excellent handbooks for English printed books and manuscripts, but no one book that takes us through every aspect of the making and circulation of texts, from paper to binding to reading. Mark Bland meets an urgent need."

Peter Stallybrass, University of Pennsylvania, USA

A Guide to Early Printed Books and Manuscripts provides an introduction to the language and concepts employed in bibliographical studies and textual scholarship as they pertain to early modern manuscripts and printed texts. Focusing on documents from the late sixteenth and early mid-seventeenth century, Mark Bland explains the complex process of viewing documents as artefacts, showing readers how to describe documents properly and how to read their physical properties.

- Based almost exclusively on new primary research
- Demonstrates how to use the information gleaned as a tool for studying the transmission of literary documents
- Explains the importance of such matters and the purposes to which such information is put
- Features carefully selected - and often unfamiliar - illustrations to keep the discussion fresh
- An invaluable resource for anyone interested in book history and textual scholarship

Mark Bland is Senior Lecturer in the Department of English and Creative Writing at De Montfort University. He has published extensively on early printed books and manuscripts, paper, censorship, stemmatics, and editorial practice, as well as on Ben Jonson and his contemporaries.
