How communities can come together to address issues
of climate change.

Workshops and activities for children, aged 5 and over.

A Family Event - All Welcome

AIMS:

- ★ To take stock of where we are now with climate change following the Copenhagen Conference.
- ★ To explore the options for what we can do about climate change locally as workers, consumers, citizens and communities.

This conference will bring together people committed to raising awareness of climate change by providing knowledge, posing options, stimulating debate and generating solidarity to inform personal and social action.

Workshops on options for social action will include:

1. Newcastle Science City.
2. Women and Climate Change
3. Transition Towns
4. Local Council
5. Platform 2 (to be confirmed)
