Cost:	Free , with refreshments provided	

Do you work with children and young people?

Do you want to know more about programmes which currently support partnerships across the children's workforce in museums, galleries and archives?

MLA is running a **free** event in your area that will give you the opportunity to:

- Discover how mutually beneficial sharing skills and knowledge with teachers and trainee teachers can be
- Network with colleagues from across the cultural and educational sectors
- Find out more about current MLA programmes that can support your professional development

MLA's Strategic Commissioning Programme creates opportunities for cultural educators to learn from colleagues across the children's workforce as a whole.

The workforce skills development strand includes three grants programmes, designed to forge strong partnerships between teachers and children's sector professionals and museums, archives & galleries:

- **Learning Links** initiates, builds and sustains learning partnerships with museums, archives and children's sector professionals, through experiencing each other's working environment and practice
- **Initial Teacher Training** and **Teaching Outside the Classroom** embeds working with museums and archives into the practice of trainee teachers
- **Watch this Space** (managed by engage) supports placements in contemporary galleries enabling teachers, children's sector professionals and artists educators to build and sustain relationships that introduce young people to contemporary art in galleries.
