ICA GAM 2011 :: Call for Papers

4th ICA Workshop on Geospatial Analysis and Modeling

August 10-12, 2011, Burnaby, British Columbia, Canada

BACKGROUND AND SCOPE

Following the success of three previous workshops, we are pleased to announce that the Fourth International Cartographic Association (ICA) Workshop on Geospatial Analysis and Modeling will be held from August 10-12, 2011 at Simon Fraser University (SFU), Burnaby, Canada. Given the traditions of the workshop series, we aim at bringing together leading researchers from relevant subject fields to address issues related to the complexity of dynamic geographical and environmental systems from a geospatial analysis and modeling perspective. The overall focus will be to examine the conceptual, technical and application challenges of complexity science as a paradigm to effectively analyze the linkages between social, economic and natural systems evolving in time and across geographic space. The workshop is organized by the ICA Commission on Geospatial Analysis and Modeling, and sponsored by Simon Fraser University, the MoCSSy Program and IRMACS Center at SFU. Researchers will have the opportunity to share knowledge, exchange scientific ideas and results, and develop long term research collaborations.

WORKSHOP TOPICS

The topics will focus on but not limited to the following areas:

- Cellular automata and agent-based modeling
- Visual analytical tools for environmental & urban systems
- Analysis of human movement data
- Spatio-temporal data mining
- Small-world modeling and spatial interactions
- Hierarchies, scaling & structures of geographic patterns
- Modeling vehicle dynamics and crowd behavior
- Patterns of human spatial behavior and migration
- Urban high-resolution morphology
- Evolutionary computing

PAPER SUBMISSIONS

You are invited to submit papers of 6000-7000 words dealing with original and unpublished research on themes related to the Workshop. Submitted papers will be refereed for quality, originality and relevance by the Scientific Committee. All papers should be in English, MS Word format and with figures and tables positioned correctly within the text. Format all papers according to the MLA style described at the website <http://www.lib.sfu.ca/sites/default/files/9761/mla.pdf>. In addition, papers should include all authors affiliation and email, five keywords and an abstract of up to 300 words. Accepted papers will be published in the conference proceedings provided at least one author is registered for the conference before the early registration date. Selected papers will be invited to be extended for peer-review with possible publication in a Journal special issue or Edited Book.

Submit your paper at: <https://www.easychair.org/conferences/?conf=icagam2011>

SCHEDULE

Due date for receiving papers: **April 27, 2011**

Acceptance notification: **May 27, 2011**

Early registration date: **June 15, 2011**

Workshop date: **August 10-12, 2011**

SCIENTIFIC COMMITTEE

Gennady Andrienko, Fraunhofer Institute of IAIS, Germany

Yifang Ban, Royal Institute of Technology, Sweden

Itzhak Benenson, Tel Aviv University, Israel

Tao Cheng, University College London, UK

Daniel Griffith, University of Texas Dallas, USA

Yan Liu, The University of Queensland, Australia

Feng Lu, Chinese Academy of Science, China

Danielle Marceau, University of Calgary, Canada

Harvey Miller, University of Utah, USA

Tony Moore, University of Otago, New Zealand

Nikos Salingaros, University of Texas San Antonio, USA

Raja Sengupta, McGill University, Canada

Zhenjiang Shen, Kanazawa University, Japan

Daniel Sui, Ohio State University, USA

Jean-Claude Thill, University North Carolina Charlotte, USA

Xiaohua Tong, Tongji University, China

Paul Torrens, Arizona State University, USA

Xiaojun Yang, Florida State University, USA

Xiaobai Angela Yao, University of Georgia, USA

WebMGS 2011 :: Call for Papers

ISPRS WG IV/5 2nd International Workshop on Pervasive Web Mapping, Geoprocessing and Services

August 10-12, 2011, Burnaby, British Columbia, Canada

BACKGROUND AND SCOPE

The workshop will take place at Simon Fraser University (SFU), Burnaby, Canada from August 10-12, 2011. It is the second of a series of ISPRS WG IV/5 workshops that provide a dedicated scientific forum for researchers, professionals, government decision-makers and students to exchange and discuss current and state of the art advances in web-based mapping, geospatial information services and applications. The workshop emphasizes a diverse topic range related to the new web-based development of geospatial theories, technologies and solutions. The workshop is organized by ISPRS WG IV/5 in collaboration with ISPRS WG IV/1 and IV/4, sponsored by Simon Fraser University, the MoCSSy Program and IRMACS Center at SFU. Researchers will have the opportunity to share knowledge, exchange scientific ideas and results, and develop long term research collaborations.

WORKSHOP TOPICS

The topics will focus on but not limited to the following areas:

- Web-based analysis and mobile applications
- Geospatial web architecture and system design
- Geospatial web semantics and ontology
- Intelligent web mapping/GIS services
- Open source solutions and specifications
- 2D/3D visual effects and internet geovisualization
- Security and copyright for the geospatial web
- Automatic web geoprocessing and workflows
- Geocollaboration and map mashups
- Cartographic theories & web mapping interfaces
- Web-based virtual geospatial environments
- Quality assessment of web-based data sources
- Web-based SDSS and PPGIS
- Web-based mapping and GIS for education

PAPER SUBMISSIONS

You are invited to submit papers of 6000-7000 words dealing with original and unpublished research on themes related to the Workshop. All papers must be formatted using the ISPRS author's guidelines that can be accessed at the website <http://www.isprs.org/documents/orangebook/app5.aspx>. Submitted papers will be refereed for quality, originality and relevance by the Scientific Committee. In addition, papers should include all authors affiliation and email, five keywords and an abstract of up to 300 words. Accepted papers will be published in the conference proceedings provided at least one author is registered for the conference before the early registration date. Selected papers will be invited to be extended for peer-review with possible publication in a Journal special issue or Edited Book.
