

"POETRY
HAS BEEN BURY, BURY
GOOD TO ME"

Text Festival 2011

30 April – 9 July

The Text Festival in Bury is an internationally recognised event investigating contemporary language art (poetry, text art, sound and media text, live art). In its third manifestation, the Festival specialises in experiments, in new experiences, in performances and exhibitions that mix artforms in ground-breaking combinations that challenge traditional language art boundaries and offer artists a forum for dialogue and exchange of ideas.
