Mapping the Landscapes of Childhood Conference

May 5-7, 2011 • University of Lethbridge

Figured in the plural, **childhoods** pose a significant crossroads for theoretical and empirical work on the nature of being human and development broadly construed, and childhood as an experience, as a social category, as an artistic and literary construct, as a category for historical and demographic analysis, as a category of personhood, and as a locus for human rights and policy interventions. Considering childhoods of the past, present and future, scholars will present research results, policy approaches, and theoretical paradigms that are emergent in this re-engagement with the child and childhoods.

Early bird registration rates apply until April 4th! Register at:
<https://www.uleth.ca/conreg/childhoods/content/registration>

Daily Keynote Events

Thursday Luncheon Panel:

Dr. Patrizia Albanese: Department of Sociology, Ryerson University
