

P-CUBE Workshop on Advances in Protein Crystallization and 2nd P-CUBE User Meeting

5 - 9 September 2011, Zurich, Switzerland

Photo courtesy M. Bühlmann

Speakers include:

Nenad Ban (Keynote)

ETH Zurich, CH

Markus Grütter

University of Zurich, CH

Andreas Plückthun

University of Zurich, CH

Serge Chesnov

UZH/ETH Zurich, CH

José Marquez

EMBL Grenoble, FR

Patrick Shaw Stewart

Douglas Instruments Ltd, UK

Mareike Kurz

University of Zurich, CH

Topics include:

- * Properties of macromolecular solutions for structural studies - Polishing methods
- * Biophysical/biochemical characterization of macromolecular solutions for structural studies
- * Crystallization of biological macromolecules (Effects of macromolecular solution properties, nucleation and growth, screening strategies, crystallization methods)
- * Strategies and special approaches to grow crystals (Counter diffusion, seeding, crystal evaluation)

Application:

Deadline: 30 June 2011

For further details see:

www.p-cube.eu

see Events section

Organiser:

Markus Gruetter

University of Zurich, CH
