

# The UK's 4th largest retailer...and growing.

## Location Planning Managers

Excellent salary + benefits + lucrative relocation package

West Yorkshire

Our fresh approach is what sets us apart. Because we take 'growing' our business so seriously, we grow both our own produce and our people – quite literally. And we invest in our people and their development – just one reason why we've been named Retail Week's Employer of the Year 2011.

In just 2 short years, we've also grown our Location Planning Team from 2 to 6, and now we're ready for more. If you've got what it takes to join us, you'll enjoy all the freedom and responsibility you need to shape policy and practices and implement your own ideas.

From collating initial analysis to making key recommendations based on robust and thorough research, you'll get involved in every aspect of investment proposals for existing and new stores. This will include providing sales, competitor and demographic analysis, the strategic insight that defines the Morrisons network strategy, and formulating sales and impact forecasts while investigating factors that impact on planning.

With experience gained in a similarly complex retail environment, you'll have a successful track record of delivering development strategies. From your experience, you'll have a good understanding of the UK food retail market, geography and demography. Technically, you'll have recent experience of data and spatial analysis, the application and development of GIS and spatial modelling, and are skilled in using GIS tools. Just as important are strong skills in analysing, assimilating and communicating your findings, particularly to explain complex issues to a variety of audiences and to prepare supporting documentation.

Moreover, you'll be excited by the idea of facing fresh challenge in an exciting, dynamic and growing environment that presents the kind of challenges and pressure you thrive on.

For more information and to apply, please forward a covering letter and copy of your CV to [neal.stevenson@morrisonspc.com](mailto:neal.stevenson@morrisonspc.com)
