## Accounting, Auditing & Accountability Journal

The *Accounting, Auditing & Accountability Journal (AAAJ)* is dedicated to the advancement of accounting knowledge and provides a forum for the publication of high quality manuscripts concerning the interaction between accounting/auditing and their socio-economic and political environments. It therefore encourages critical analysis of policy and practice in these areas. Analysis could explore policy alternatives and provide new perspectives for the accounting discipline.

### Coverage includes:

Alternative explanations for observed practice; critical and historical perspectives on current issues and problems; limitations in present accounting measurement; social and political aspects of accounting standards; and

the broadening scope of the reporting constituency. The journal was rated A\* in the 2010 Excellence in Research for Australia ranking.

### Benefits and features

- The broad scope of the journal and its serious treatment of contemporary issues in the light of historical, philosophical and traditional constraints creates a broad relevance within the profession.
- Already internationally regarded as a leading journal in its field, AAAJ challenges conventional wisdom, explores alternatives and offers new perspectives for the accounting discipline.
