

University of Birmingham,
School of Psychology

Research Fellow - The Cerebra Centre for Neurodevelopmental Disorders

Full Time

Fixed Term from the 1st April 2012 for a period of 21 months

Salary from £27,428 - £35,788, with potential progress once in post to £37,990 a year.

Applications are invited from psychology graduates with a 1st class or 2:1 degree and a PhD in an area relevant to intellectual disability and qualified Clinical Psychologists. The appointee will work in the Cerebra Centre for Neurodevelopmental Disorders and will work under the direction of Prof. Chris Oliver at the University of Birmingham and join a team that includes seven PhD students and four Research Fellows\Associates.

The work of the Centre focuses on the problems experienced by people who have neurodevelopmental disorders, particularly those who have severe intellectual disability, genetic syndromes and autism spectrum disorders. The Centre combines the methods of behavioural, clinical and developmental psychology, neuroimaging and cognitive neuroscience. Further information about the Centre is available at www.cndd.bham.ac.uk.

Applicants need to demonstrate experience of a range of clinical\research methods with people with intellectual disability, as well as experience of quantitative research including different methods of data collection, research designs, analysis and final report writing.

Applicants also need to demonstrate good organisational and time management skills, familiarity with SPSS, Excel, Word Processing. Applicants should have experience of publishing in peer reviewed scientific journals.

Informal enquiries should be directed to: Prof. Chris Oliver (C.Oliver@Bham.ac.uk)

Closing date – 16th December 2011

Reference -47273
