Could you be a good Mentor?

Are you interested in your own learning & development?

Are you self-critical, reflective and curious?

Do you have a strong interest in developing others?

Are you a good listener?

"Coaching and Mentoring are learning relationships, which help people to take charge of their own development, to release their potential and to achieve results that they value."

Connor & Pokora (2007:6)

Benefits of being a mentor:

- Opportunity to reflect on your own decision making processes.
- Develop your own self confidence with the realisation that you have more skills that you give yourself credit for.
- Pride in the knowledge that you are passing on a legacy of your skills and knowledge to others.
- The knowledge that you are helping shape and build other peoples futures.
