

March 2012

To Directors of Informatics

Dear Colleague,

Continuing Professional Development Courses in Health Informatics

I wrote last summer with details of our postgraduate programmes and professional development courses in Health Informatics. I hope you found this information useful and were able to pass it on to any colleagues and staff who may have benefited. Postgraduate qualifications are increasingly seen as important for professional Health Informatics staff, and we are committed to helping you achieve this.

We currently have a small number of places with sponsorship by NHS North and Yorkshire & Northern ASSIST remaining on our courses this academic year as follows:

Monday 23rd April – Friday 27th April 2012

Mobile Health

Examining mobile health care technology and exploring the opportunities for rethinking models of care delivery.

I have attached a flyer providing more detailed information for you to pass on to any colleagues you think may benefit.

If you would like to discuss this further, I would be very pleased to hear from you.

Best wishes,

A handwritten signature in black ink, appearing to read 'S. Clamp'.
