

@ ICCHP, Linz, 11–13 July 2012

UNIVERSAL
LEARNING
DESIGN

INVITATION TO CONFERENCE

Dear madam, dear sir, it is our pleasure to invite you to the international conference **Universal Learning Design**, organized by **Masaryk University** in collaboration with **Johannes Kepler University**, which will be held as an independent special track of the 13th ICCHP conference in Linz on 11–13 July 2012.

The **UNIVERSAL LEARNING DESIGN 2012** conference in Linz will present another opportunity to share experience with professionals who take care of the practical matters and thus technologically, organizationally, legally, linguistically, psychologically or pedagogically provide for the universal learning design at universities and, due to the inclusion into the organizational frame of **ICCHP**, also with developers and distributors of technologies necessary for meeting this goal.

We are looking forward to meeting you in Linz.

On behalf of the conference organizing team,

Petr Peňáz, Support Centre for Students with Special Needs

Klaus Miesenberger, Institut Integriert Studieren in Linz

Please, feel free to forward this information to your collaborators and colleagues who may be interested in the conference.

Teiresiás

TOPICAL AREAS:

1. Standards of Universal Learning Design at Universities and Testing of Persons with special needs
2. Linguistic Competence of the Hearing Impaired and the Role of Sign Languages in Tertiary Education
3. Universal Design of Electronic Documents and Public Electronic Libraries for Purposes of Tertiary Education
4. Specific Learning Disorders and Other Types of Neurodiversity in Tertiary Education and Compensation Devices

CONFERENCE LANGUAGES:

- English
- International Sign System

If hearing impaired participants are present, local languages, i.e. German and Austrian Sign Language for instance, will also be considered conference languages.

POSTERS, WORKSHOPS AND SPECIAL TOPICAL MEETINGS:

Proposals of presentations in the form of posters, workshops, special topical meetings and company presentations are welcome.

You can submit the proposals of your workshops until **1 June 2012**. The deadline for the posters is **1 July 2012**.

More information about the submission of papers, general conditions of contributions and deadlines can be found at the web page <http://uld-conference.org/registration>.

The **ICCHP Summer University** is a series of workshops which was initiated as a pre-conference event at ICCHP and which is now held every year – at ICCHP in even years, as an independent event at changing locations in odd years.

In 2012, due to the success of the previous events in 2010 (ICCHP in Vienna) and 2011 (Telc, Czech Republic), the “SU” will be organised together with ICCHP and ULD, allowing participants to benefit from selected sessions of the main conference.

The ICCHP SU is designed for blind and visually impaired students at university level who want to get to know latest technologies and methodologies to assist them in dealing with mathematical, scientific, and statistical contents. It also gives their teachers an opportunity to explore these technologies and exchange hands-on experience.
