

National STEM Centre Demonstration and tour

Where: National STEM Centre, York

When: 10am, Tuesday 20th November

We will look at what the National STEM Centre has to offer teachers and lecturers both in terms of the physical facilities and a demonstration of the eLibrary for free access to engaging and inspiring resources for teaching STEM subjects, how the online community can support your school/college and networks and where to look for wider STEM support.

About the Maths Magic Project

Maths Magic is funded by HEFCE to help widen participation of adults into STEM subjects via capacity-building events for staff teaching maths to adult returners in the North and North East. It provides opportunities to develop and share activities which promote the enjoyment, beauty and intrinsic interest of maths. The ultimate aim is to help adults perceive that maths can be appealing and fun and enjoyable, even fun, rather than a functional necessity.

How to Book

This event is **free** and is followed by lunch and networking and refreshments will be provided. If you would like to attend please contact Pat Dixon, by **Friday 9th November**, for a booking form:
