

**FOUNDATION PROFESSOR
Civil Engineering**

Flinders University, Adelaide, Australia

- Launch Flinders University's new Bachelor of Engineering (Civil) program
- Oversee the development of the civil engineering laboratories

Flinders University is seeking an outstanding academic to be appointed to the position of Foundation Professor in Civil Engineering. The Foundation Professor will be instrumental in leading and directing the launch of the University's new Bachelor of Engineering (Civil) program and the development of the civil engineering laboratories.

Reporting to the Dean of the School of Computer Science, Engineering and Mathematics, the Foundation Professor will provide leadership and support for excellence in research and oversee the application for external fellowships and funding.

The successful candidate will be an energetic and dynamic leader and innovator, perhaps on an upward trajectory in your academic career path, with a distinguished record of research of international standing, excellence in teaching and with strong academic leadership capabilities. A demonstrated track record in providing academic and administrative leadership within a school, combined with a commitment to both teaching and research, are required.

A PhD in Civil Engineering or a closely related field is essential and the capacity to develop links with government, industry and commercial stakeholders will be highly regarded.

Closing date for applications Friday 11 October 2013
