

## iPads in Higher Education

First International Conference

**Paphos, Cyprus 2014**

*Update: September 2013*

### **Second Call for papers, ihe 2014 – Deadline: Monday 4th November 2013**

1st International Conference on the use of iPads in Higher Education (ihe2014)  
Paphos, Almyra Hotel, 20 - 22 March 2014, [www.ihe2014.org](http://www.ihe2014.org)

The organizing committee is pleased to announce a second call for papers with the focus on:

- Pedagogic issues and use of iPads in HE
- iPads and collaborative, project-based and context-based learning
- Research on the instructional use of iPads in HE
- The use of iPads in different HE disciplines
- iPads, usability and learning in HE
- iPads and faculty professional development
- Assessing educational apps for the iPad

If you would like to submit a paper with a scope outside the above topics but within the broad theme of iPads in Higher Education, please email [stefania.savva@cut.ac.cy](mailto:stefania.savva@cut.ac.cy) with an abstract for feedback. All other submissions should follow the online submission system.

Full papers should be 5000-6000 words in length including bibliography and abstract.  
Short papers should be between 2000-3000 words in length including bibliography and abstract.  
All papers (abstract 250-350 words, three to five keywords, full or short papers) must be submitted by Monday 4th November 2013

In reviewed papers will be published in the conference proceedings.

#### PLEASE NOTE

Submissions should be in Microsoft Word format, double spaced in Arial 12 point and should follow the APA version style of referencing. The cover sheet should include title of paper, corresponding author(s) name(s) and surname(s), university/organisation and contact details. All papers should include an abstract and keywords.

**Keynote speaker:** *John Traxler, Professor of Mobile Learning, Director of the Learning Lab, University of Wolverhampton, UK*

Professor Traxler is an honorary member of the Interdisciplinary Science, Education, Technologies and Learning group at the University of Glasgow and a Research Fellow at Mobile Studies in Ningbo. He is a Founding Director and Vice-President of the International Association for Mobile Learning, Executive Committee Member of the USAID mEducation Alliance, Associate Editor of the International Journal of Mobile and Blended Learning and of Interactive Learning Environments. He is on the Pearson mLearning Think Tank, Research Board of the Association of Learning Technology, the Editorial Board of Research in Learning Technology and IT in International Development.

John has co-written a guide to mobile learning in developing countries for the Commonwealth of Learning, is co-editor of the definitive book, *Mobile Learning: A Handbook for Educators and Trainers*, with Professor Agnes Kukulska-Hulme, with a second book, *Mobile Learning: the Next Generation*, due to be published in 2013. He is co-authoring a book, *Key Issues in Mobile Learning: Research and Practice*, with Professors Norbert Pachler & and John Cook.

He has written 30 book chapters on mobile learning, and talks and writes frequently on the nature and consequences of connectedness and mobility on learning, knowledge and societies. He is currently developing the world's first online masters course in mobile learning, and is on the UNESCO Policy Advisory Team for mobile learning.

**Keynote speaker:** *Mike Sharples, Professor of Educational Technology, Institute of Educational Technology, Open University, UK*

Professor Sharples has a post as Academic Lead for the FutureLearn company. His research involves human-centred design of new technologies and environments for learning. He inaugurated the mLearn conference series and was Founding President of the International Association for Mobile Learning. He is Associate Editor in Chief of IEEE Transactions on Learning Technologies. His projects include the Wolfson OpenScience Laboratory, which is an international virtual laboratory for practical science teaching, the JUXTALEARN project on science learning through creative media, and the nQuire project to develop online inquiry science learning for young people.

He is author of over 300 papers in the areas of educational technology, science education, human-centred design of personal technologies, artificial intelligence and cognitive science.
