Institute of Creative Technologies' Transdisciplinary Community TDC - Seminar Programme 2013

Our popular seminar series of feature presentations by prominent creative technologists continues this year. This is highly recommended for all Practice-Based Research students as well as colleagues involved in research into the intersections of science, arts and technologies. Details of this and subsequent seminars as follows:

18 Dec 2013 @ 2-3pm (Queens Building, ground floor, room 0.11)
Stroud Cornock - artist, curator, educator: "In the Gap"

29 Jan 2014: Abigail Sellen - Microsoft Research Cambridge

26 Feb 2014: Brian Reffin-Smith - pioneer of computer-based conceptual art

TDC seminars will be taking place on every last Weds of the month. For more information, please contact the TDC events organiser: Dr Francesca Franco (ffranco@dmu.ac.uk)
