## Job Openings for new Group Leaders in Structural Biology at the Institute for Research in Biomedicine (IRB Barcelona)

The **Institute for Research in Biomedicine (IRB Barcelona)** in Barcelona invites applications from outstanding investigators for independent **Group Leader positions to join the Structural and Computational Biology Programme**. Applications from both senior and junior scientists are welcomed.

The candidate will be an ambitious structural biologist with the capacity to develop cutting-edge multidisciplinary research, with a special focus on the research topics addressed by the institute.

IRB Barcelona will provide successful candidates with a generous start-up package and access to state-of-the-art facilities, including high-throughput protein expression, automated crystallography, mass spectrometry, NMR, and electron microscopy platforms. IRB Barcelona researchers also have access to the ALBA Synchrotron ([www.cells.es](http://www.cells.es)) and the Barcelona Supercomputing Center ([www.bsc.es](http://www.bsc.es)), both located nearby.

IRB Barcelona is an independent, non-profit institute jointly set-up by the Government of Catalonia and the University of Barcelona and located at the Barcelona Science Park. IRB Barcelona performs multidisciplinary research of excellence at the interface between structural and computational biology, chemistry, and biology.

Applications including a CV, letter of intent, brief (2-page) research proposal and the names of at least three referees should be sent no later than **31 March, 2014** to [irbgcall@irbbarcelona.org](mailto:irbgcall@irbbarcelona.org).
