

SENIOR GEOPHYSICIST

PO3 \$83,601 - \$88,669 p.a.
Adelaide CBD Based
Ongoing full-time

An opportunity exists for an innovative and experience structural exploration geophysicist to join the GSSA

The Geological Survey of South Australia is a branch of the Mineral Resources Group which is part of the Department for Innovation, Manufacturing, Trade Resources and Energy. The GSSA provides a comprehensive information and knowledge framework on South Australia's geoscience and resources through a strategic science based approach within a collaborative and professional work environment to deliver non-rivalled pre-competitive geoscience data to the exploration and mining industry and wider community.

We are looking for a talented individual with an exploration focus and high level geophysical data management expertise to join our team. You will be responsible for providing geophysical expertise to support mapping and exploration initiatives within the GSSA.

You will have a minimum of 5 years experience, with a high level of geophysical interpretation and mapping skills at the regional and prospect level. A high level of knowledge of structural and stratigraphic interpretation methods and attribution analysis is required. Experience in the high level use of geoscientific exploration software including ERMapper, ArcGIS and/or Mapinfo (+Discover), Intrepid and Model Vision is also required.

A PhD is highly desirable.

All applicants must have Australian residency.

To apply for this position please visit www.vacancies.sa.gov.au and quote vacancy number 2911/2014.

Applications Close: 23 May 2014
