

# BIOMAG International Conference Satellite Event

## “Zero - to - Hero”

An overview of MEG data acquisition, analysis and interpretation

Saturday August 23<sup>rd</sup> 2014- Halifax, Nova Scotia, Canada

**This event will give you a complete overview of MEG, how it works, how to analyse data, and how to interpret results in the context of other neuroscience findings.**

**You will gain in-depth knowledge to realise MEG's potential as a neuroscience and clinical tool.**

**Come and share in this opportunity to learn from established MEG scientists. Speakers include experts from around the world.**

Registration is open at <http://www.biomag2014.org>

### Session 1:

**Hearing a pin drop at a rock concert: Neuromagnetic field measurement**

*Maria Mody  
Lauri Parkkonen  
Samu Taulu*

### Session 2:

**Inverting the uninvertible: Introducing the forward and inverse problems**

*Matti Hamalainen  
Carsten Wolters  
John Mosher*

### Session III:

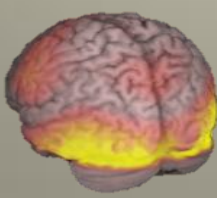

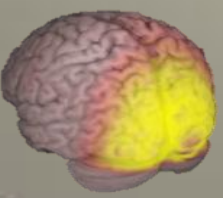

**Taking things up a notch: Advanced analysis methods**

*Alex Gramfort  
Jan Mathijs Schofflen  
Richard Leahy*

### Session IV:

**So what does it all mean: Interpreting MEG data**

*Krish Singh  
Roslyn Moran  
Stephanie Jones  
Peter Morris*
